Douglas Keefer
Commissioner of Public Safety

John P. Morell
Chief of Police

BUREAU OF POLICE
814/898-1634
4230 IROQUOIS AVENUE, ERIE, PENNSYLVANIA 16511

October 12, 2026

Board of Commissioners

During the month of September, the Police Department responded to 861 calls for service throughout the community. Officers continued to provide patrol coverage, respond to citizen complaints, and address public safety concerns as they arose.

In addition to daily operations, the Department conducted training for its personnel to ensure officers remain prepared, professional, and up to date on policies, procedures, and best practices. We remain committed to providing responsive and effective police services and appreciate the continued support of the Board of Commissioners.

Respectfully Submitted,

Chief John Morell

Township Manager's Report
Spencer Cadden, Township Manager
Lawrence Park Township: October 14, 2026

Roads and Infrastructure

Rankine Avenue and Iroquois Avenue Signal Project

The Township continues to coordinate with RCI on the contracted reconstruction of the traffic signal at Rankine Avenue and Iroquois Avenue. As reported in September, contractor scheduling and supply-chain constraints have affected the anticipated start of work. Administration is hopeful that work will begin later this month or in early November, although a firm start date has not yet been confirmed. We will continue to monitor the contractor's schedule and provide updates as they become available.

PennDOT Winter Maintenance Agreement

Administration has finalized a winter maintenance service agreement with PennDOT under which the Township will be compensated for providing snow and ice control on Main Street and other covered PennDOT facilities. Although Main Street is maintained locally under this arrangement, it remains a state-owned roadway. The agreement helps formalize the Township's winter maintenance responsibilities while providing funding to offset the cost of performing this service.

Public Works and Parks

Public Works Staffing and Winter Readiness

The Township's newer Public Works employees, Stanley Cartright and Zachery Johnson, continue to perform exceptionally well. Both have brought a proactive approach to daily operations, and Administration appreciates their work as the department prepares for its first winter season with the current staffing complement.

Winter preparation is underway, including planning for snow removal and the materials needed for safe roads. Salt prices have reportedly increased by at least 50 percent across the state, which will place additional pressure on the Township's winter maintenance budget. Administration will continue to evaluate winter operating needs and the associated financial impact.

Fall Leaf Collection and New Leaf Vacuum

The Township has provided residents with a public service announcement explaining the three available options for managing leaves this fall. First, residents may rake loose leaves to the curb for collection by the Township's leaf vacuum. Collection is expected to begin near the end of October, continue until snowfall interrupts operations, and resume in the spring. Only loose leaves may be placed for vacuum collection; sticks, trash, and other debris can damage the equipment and interrupt service.

The Township has also obtained a new leaf vacuum through grant funding to replace its previous machine, which experienced repeated mechanical problems. Administration is hopeful that the new equipment will make collection more dependable. Second, residents may take leaves and brush to the drop-off area behind the Harborcreek Township municipal building. Third, Waste Management provides leaf pickup on designated dates using 30-gallon paper bags. Residents can find the applicable calendar and pickup information on the Township website by selecting "About Us" and then "Waste Management."

Tree Assessment and Public Safety

The Township arranged for an arborist from the Pennsylvania Department of Conservation and Natural Resources (DCNR) to assess trees throughout Lawrence Park. The assessment identified indications of honey fungus affecting numerous trees, particularly sycamores, as well as several trees presenting more immediate safety concerns. These include trees with large dead limbs in their canopies, fungal deterioration, or other structural weaknesses that may threaten adjacent streets, homes, parked vehicles, or pedestrians.

Administration is reviewing the identified hazards and will communicate additional information to residents through a public service announcement. Addressing trees that present immediate danger remains a public safety priority, while broader tree health concerns will require continued attention.

Farmers Market at the Launch

Both the September Farmers Market and the final October Farmers Market were successful community events. The strong reception reflects the continued interest of residents and vendors in programming at the Lake Cliff boat launch area. Administration appreciates the efforts of the Parks and Recreation Board, participating vendors, volunteers, and residents who helped make this year's markets a success.

Buildings and Property

Magisterial District Judge Lease

The lease for the Magisterial District Judge's space has been completed. This concludes the lease process discussed in prior reports and provides continuity for the County's use of the Township facility.

Building Access Improvements

The Township continues working to complete the building access-control project previously contracted through Whitetail. Administration is also evaluating the repositioning of certain interior doors to make the space better suited to current building operations and tenant needs. These improvements are intended to address access issues and improve the functionality of the facility.

Second-Floor Leasing

Following the Pennsylvania State Police's departure, the Township continues to seek a replacement tenant for the second-floor space. Administration has conducted tours with interested parties, but the space remains unleased. We will continue to pursue prospective tenants and explore opportunities to return this available space to productive use.

Storm and Tree Damage – Insurance Matters

The Township is addressing two property damage incidents involving falling trees or limbs. A tree limb fell onto a Township truck, and a separate tree fell onto the gazebo at Beute Park. Both matters are being handled through the appropriate insurance and follow-up processes. Administration will provide further information about the gazebo during the Board meeting as the Township evaluates the extent of the damage and necessary next steps.

Finance, Grants, and Compliance

County Aid and Pension Assistance

The Township has been awarded approximately $17,000 in PennDOT County Aid reimbursement associated with Liquid Fuels funding. This assistance supports eligible transportation-related costs and helps offset expenses borne by the Township.

The Township also received more than $120,000 in state pension aid to assist in meeting its pension obligations. These funds are particularly important as Administration works to maintain financial stability and meet the Township's recurring obligations.

Community Announcements

Halloween Trick-or-Treat Hours

Township trick-or-treating is scheduled for Saturday, October 31, from 6:00 p.m. to 8:00 p.m. Residents and motorists are encouraged to use extra caution during these hours as children and families travel throughout the community.

Respectfully submitted,
Spencer Cadden
Township Manager
